

Certificate CO² reduction

Hereby we certify that in the year 2022 Azienda Vinicola Talamonti srl has produced energy from renewable sources.

On January 2022 a new photovoltaic system was activated for the Logistic Hub Talamonti, compared to the year 2021 the following result was obtained in CO₂ reduction:

**64 tons of CO² per year
corresponding to the amount
of CO₂ absorbed by 3200 trees**

Azienda Vinicola Talamonti has made a significant contribution to the CO₂ reduction by this choice.

The calculations were performed by using a calculation tool developed by CE Delf for Energy Manager Agostino Ianiri.
